Databricks Solutions Architect | Multi-Cloud & AI Platform Specialist | 9 YOE in Presales, Cloud Architecture, Platform Engineering & Full Stack Development | No Sponsorship Required: UK & SG

PROFESSIONAL EXPERIENCE

Solutions Architect – Databricks, London, Sep 2025 – Present

- Hunter Solutions Architect on the Emerging Enterprise team, generating and closing net-new business across mid-market accounts ($250M–$1B ARR).
- Lead technical presales, POC delivery, and executive-level positioning from cold outreach to close.

Presales Solutions Architect (SEA Region) – Cloud Mile Pte Ltd, Singapore, Aug 2021 – Aug 2025

- Lead technical engagements across AWS, Azure, GCP, and Government Commercial Cloud environments, architecting solutions and integrating ISVs including MongoDB, Snowflake, Confluent, Fivetran and Twilio.
- Led GCP Looker enablement and GTM strategy resulting in 12 net new wins in first year.
- Migrated API from Tyk to Apigee as a POC, addressing pain points and securing a $1M annual commitment.
- Passed Microsoft Azure Terraform SRE assessment, securing $60K professional services engagement as first Azure-Terraform deal with net-new client.
- Architected and deployed multi-cloud solutions across VMs, serverless, Kubernetes, GenAI implementations, IAM security (OIDC, OAuth2, SAML), and automated AWS multi-account environments for enterprises and public sector organizations (MINDEF, HTX, Attorney General Chambers and Institutes of Higher Learning).
- Architected GitOps workflow using Terraform and GitHub for AWS infrastructure, training client DevOps team and enabling 3-year contract renewal with doubled professional services engagement.
- Sold and delivered a performance optimization engagement including enablement, scaling applications 5x (100K to 500K users/30min) with >99% stability, driving a 30% ARR increase.
- Self-hosted and integrated open-source tooling (GitLab, Mattermost, HashiCorp Vault, DataDog, DependencyTrack, DefectDojo, PostHog).

Associate Lecturer (CSIT 242 - Mobile Application Development) – SIM University, Singapore, Jan 2022 – Mar 2022

- Conducting lectures, tutorials, assessments and evaluations required by the institution.

Air Force Engineering Officer (Avionics) – Republic of Singapore Air Force, Singapore, Jan 2017 – Aug 2021

- Developed multiple Android Applications one of which was integrated with GovTech's TraceTogether (COVID-19 tracing app). The success of these collaborations proved the need for a new capability which resulted in the launch of the RSAF Agile Innovation and Digital (RAiD) department.
- Responsible for the airworthiness of the avionics and electrical system of the F-15SG, AH-64D and S-70B.
- Led multiple teams in country and overseas to provide maintenance support and recovery for AH-64Ds.

CERTIFICATIONS

Certified Kubernetes Administrator
GCP Professional Cloud Architect
GCP Professional Cloud Developer
GCP Professional Google Workspace Administrator
GCP Professional Cloud DevOps Engineer
GCP Associate Cloud Engineer
GCP Looker LookML Developer
Certified ScrumMaster
Certified Scrum Product Owner
DataDog Technical Specialist Certification
MongoDB Associate Database Administrator
MongoDB SI Associate Certification
Databricks Certified Generative AI Engineer Associate
Azure Solutions Architect Expert
Azure DevOps Engineer Expert
Azure Developer Associate
Azure Data Engineer Associate
Azure Network Engineer Associate
Azure Security Engineer Associate
Azure Administrator Associate
AWS Certified Solutions Architect – Professional
AWS Certified DevOps Engineer – Professional
AWS Certified SysOps Administrator – Associate
Snowflake SnowPro Core
Snowpro Advanced: Architect
Databricks Certified Data Engineer Associate

LANGUAGES

English – Native Speaking and Writing Proficiency
Mandarin (Simplified Chinese) – Conversational Speaking and Writing Proficiency

EDUCATION

MEng Electrical and Electronics Engineering – University of Manchester, United Kingdom, 2013-2016
Diploma in Aerospace Electronics – Singapore Polytechnic, Singapore, 2009-2012
