Solutions Architect at Databricks | Hunter, Mid-Market | Multi-Cloud, Data & AI Presales | UK & Singapore

PROFESSIONAL EXPERIENCE

Solutions Architect – Databricks, London, Sep 2025 – Present

- Hunter Solutions Architect on the Emerging Enterprise team, owning end-to-end technical sales against cloud data platforms across mid-market accounts (\$250M to \$1B revenue).
- Led CxO and VP-level technical engagements from cold outreach to close, including competitive POCs, architecture reviews, and platform modernisation narratives.
- Built an account intelligence tool integrating Salesforce, Sumble, and internal data to surface misattributed accounts, buying signals, and first-degree contacts, uncovering \$50K in misattributed consumption, opening 3 net-new customer conversations, and reducing AE research time from weeks to hours, all within the first week of launch.

Presales Solutions Architect (SEA Region) – Cloud Mile Pte Ltd, Singapore, Aug 2021 – Aug 2025

- Promoted twice in 3 years from Solution Engineer to Presales Solutions Architect.
- Led technical engagements across AWS, Azure, GCP, and Government Commercial Cloud environments, architecting solutions and integrating ISVs including MongoDB, Snowflake, Confluent, Fivetran and Twilio.
- Led GCP Looker enablement and GTM strategy resulting in 12 net new wins in the first year.
- Migrated API from Tyk to Apigee as a POC, addressing pain points and securing a \$1M annual commitment.
- Passed Microsoft Azure Terraform SRE assessment, securing \$60K professional services engagement as first Azure-Terraform deal with net-new client.
- Architected and deployed multi-cloud solutions across VMs, serverless, Kubernetes, GenAI implementations, IAM security (OIDC, OAuth2, SAML), and automated AWS multi-account environments for enterprises and public sector organizations (MINDEF, HTX, Attorney General Chambers, Universities and Polytechnics).
- Architected GitOps workflow using Terraform and GitHub for AWS infrastructure, training client DevOps team and enabling 3-year contract renewal with doubled professional services engagement.
- Sold and delivered a performance optimization engagement including enablement, scaling applications 5x (100K to 500K users/30min) with >99% stability, driving a 30% ARR increase.
- Self-hosted and integrated open-source tooling with production systems (GitLab, Mattermost, HashiCorp Vault, DataDog, DependencyTrack, DefectDojo, PostHog).
- Engaged by the RSAF via CloudMile to advise on the build-out of their Software Engineering team, supporting the lead with architecture decisions and team structure recommendations.

Associate Lecturer (CSIT 242 - Mobile Application Development) – SIM University, Singapore, Jan 2022 – Mar 2022

- Taught Mobile Application Development (CSIT 242) at SIM University as an Associate Lecturer alongside primary role.

Air Force Engineering Officer (Avionics) – Republic of Singapore Air Force, Singapore, Jan 2017 – Aug 2021

- Developed multiple Android applications for operational use, including [SwiftMed](#), which integrated with GovTech's TraceTogether COVID-19 tracing app.
- The success of these deployments directly led to the formation of the [RSAF Agile Innovation and Digital \(RAiD\) department](#), a new in-house software engineering capability.
- Responsible for the airworthiness of the avionics and electrical system of the F-15SG, AH-64D and S-70B.
- Led multiple teams in-country and overseas to provide maintenance support and recovery for AH-64Ds.

CERTIFICATIONS

Certified Kubernetes Administrator	Azure Solutions Architect Expert
GCP Professional Cloud Architect	Azure DevOps Engineer Expert
GCP Professional Cloud Developer	Azure Developer Associate
GCP Professional Google Workspace Administrator	Azure Data Engineer Associate
GCP Professional Cloud DevOps Engineer	Azure Network Engineer Associate
GCP Associate Cloud Engineer	Azure Security Engineer Associate
GCP Looker LookML Developer	Azure Administrator Associate
Certified ScrumMaster	AWS Certified Solutions Architect – Professional
Certified Scrum Product Owner	AWS Certified DevOps Engineer – Professional
DataDog Technical Specialist Certification	AWS Certified SysOps Administrator – Associate
MongoDB Associate Database Administrator	Snowflake SnowPro Core
MongoDB SI Associate Certification	Snowpro Advanced: Architect
Databricks Certified Generative AI Engineer Associate	Databricks Certified Data Engineer Associate

LANGUAGES

English – Native Speaking and Writing Proficiency
Mandarin (Simplified Chinese) – Conversational Speaking and Writing Proficiency

EDUCATION

MEng Electrical and Electronics Engineering – University of Manchester, United Kingdom, 2013-2016
Diploma in Aerospace Electronics – Singapore Polytechnic, Singapore, 2009-2012
